For Immediate Release

WASHINGTON, D.C.--- **NATIONAL DEFENSE PAC** today announces its endorsement of **Norm Clark for Louisiana's 6th Congressional District**. **Mr. Clark** served our country in the US Navy operating, troubleshooting and repairing electronic communications equipment on fast attack submarines. **NATIONAL DEFENSE PAC Chairman Rear Admiral James J. Carey, USN (ret)** stated, "Norm Clark is a disabled veteran who knows the frustration of maneuvering through the wickets of the Veterans Administration. The current VA disability review system was implemented in the World War II era. Norm will support streamlining this bureaucratic tangle."

Norm Clark added, "The Veterans Administration is supposed to be a service for veterans to get help with benefits, not an avenue to find every possible way to avoid granting them."

Mr. Clark's experience and his leadership, learned why serving our country, will be very useful in Congress as it deals with so many of our military men and women coming home from Iraq and Afghanistan with physical and mental health problems. With the completion of his PhD, later this year, Norm will be fully prepared on day one to make a difference in Congress.

While in the Navy, Norm Clark was awarded the National Defense Service Medal, Good Conduct Medal, Sea Service Deployment Ribbon, Navy Pistol Sharpshooter Ribbon, Meritorious Unit Commendation, Submarine Warfare Insignia, USS Gato Commanding Officer Citation Letter, Commander Naval Submarine School Citation Letter, Commander Submarine Squadron Two Citation Letter, and Commander Submarine Group Two Citation Letter
